

MAKRO MANUFACTURING CO., LTD.

COMPANY PROFILE

QUALITY **FOOD** PRODUCT

OUR HISTORY

Our company, MYANMAR MAKRO INDUSTRY CO., LTD. was founded in the year 1997 and operated as the first canned fish manufacturer in Myanmar. We take great pride in our fully integrated supply chain from raw material sourcing until our products reach our end consumers.

Today, our business have grown exponentially from a single cannery in the beginning to several business units which ranges from fishing operations, canning, dipping sauce production, fishmeal production, fish sauce production and sales & distribution operations. These operations have ensure high profitability as well as establishing ourselves as one of the most sustainable business model in Myanmar with none of our resources going to waste.

To get where we are now, we have never forgotten the support and hard work that our valued employees, customers, suppliers, business partners and investors have given to us from the very beginning to this date.

We will continue to develop and supply great quality products and create value for our stakeholders and our society through hard-work perseverance and our integrity.

MISSION

We manufacture good quality, nutritious and convenient products.

And we are always aiming to satisfy and give the fullest mutual benefits to our customers and all our stakeholders.

VISION

To be one of the world class major food manufacturers and exporters through strongly adhering to our corporate values and giving back to our future generations.

We will continue to develop and supply great quality products and create value for our stakeholders and our society through hard-work perseverance and our integrity

VALUE

Growth & Sustainability

We constantly strive for the growth & development of our corporation through sustainability aiming to become the self sustainable organization.

High Quality & Hygienic

We make sure that at every stage of production, our products goes through intensive and comprehensive quality control.

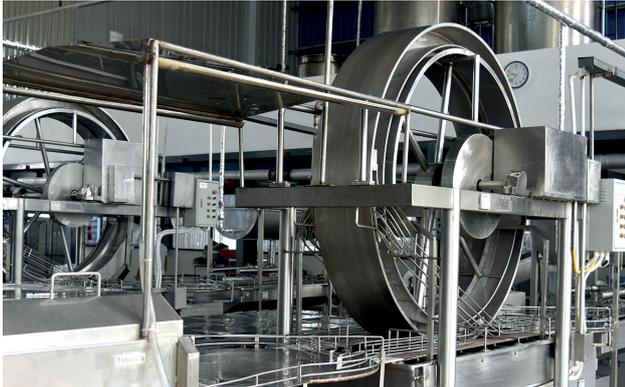

OUR FACTORY

Myanmar Makro Industry Co., Ltd. was established in 1997. The concept is to consolidate technical and marketing expertise with the rich of natural resources to supply food products domestically and internationally. The factory is strategically located in the Industrial Zone, inside Yangon City with the closest distance to the fish-landing piers and the Yangon Harbor for export and import.

"Let us produce real food product"

We are only offering products that are looking for and using only quality raw materials.

"A combination of modern technology and heart"

Our heart warming food combined with state of the art technology makes every family meal a delight

"From clean production to a healthy society"

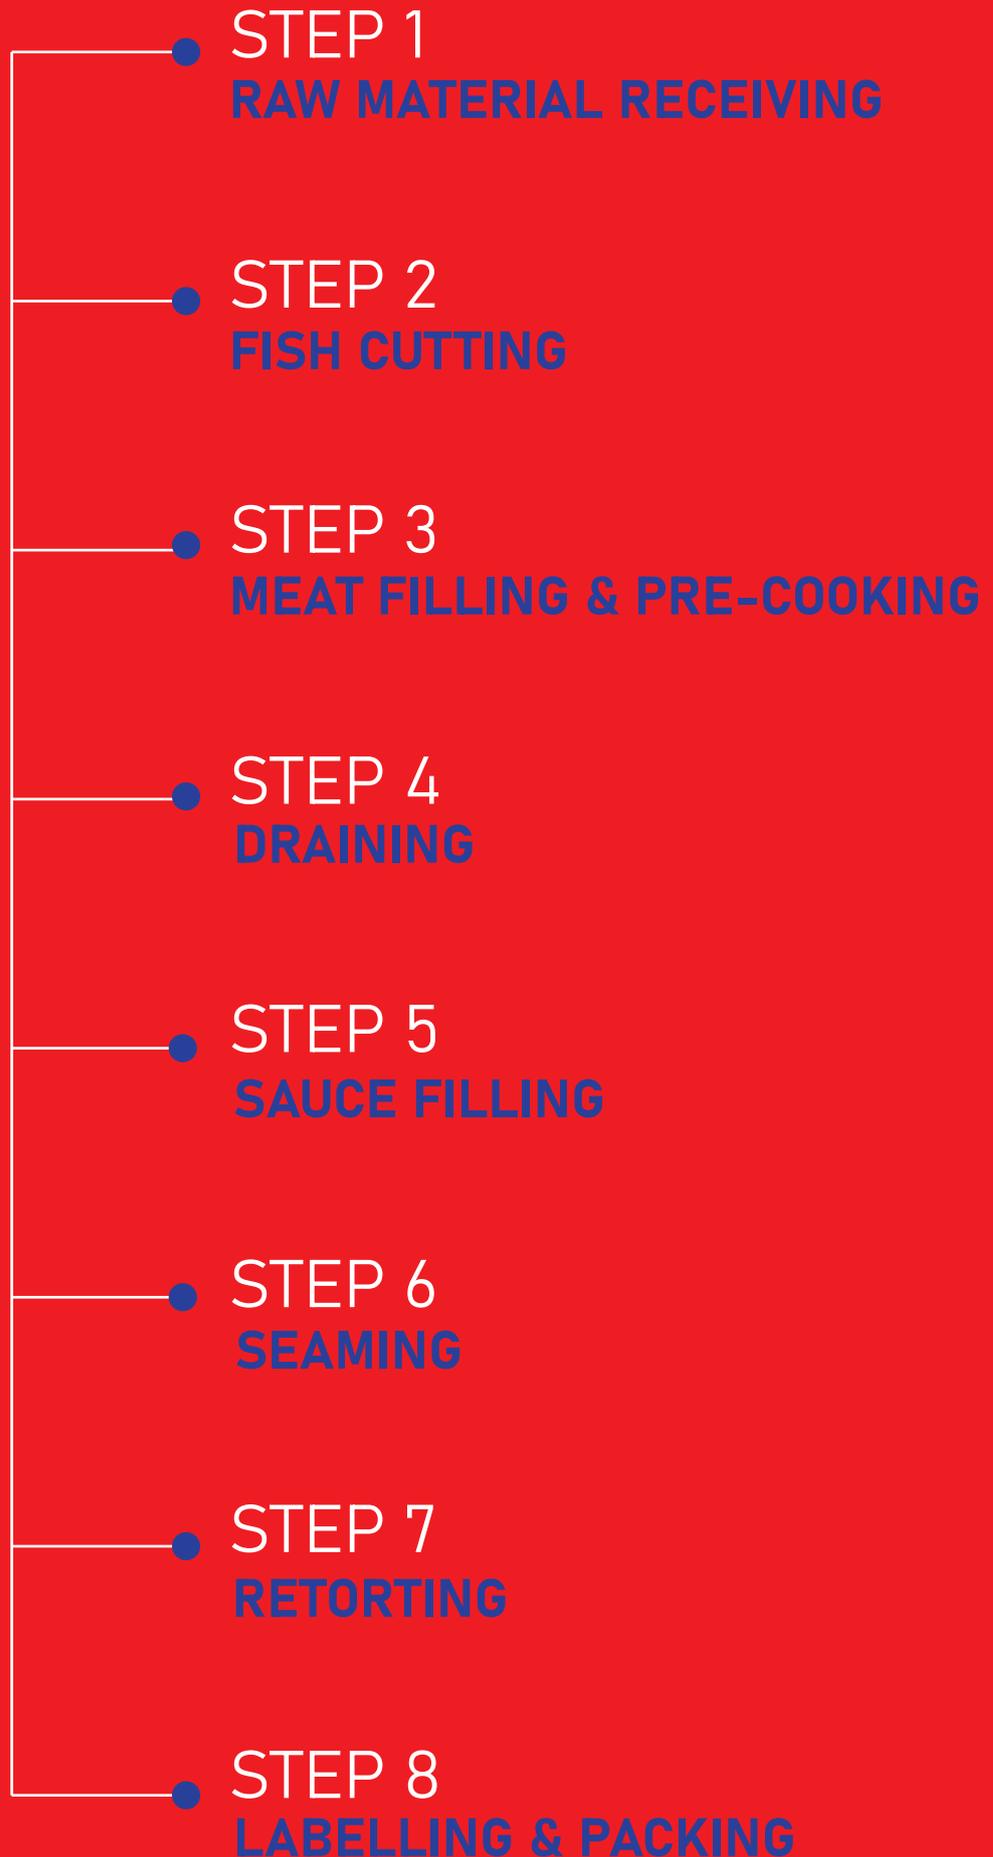

From the production to the export, we take part in taking care of the health of our consumers.

"From research principles to a progressive world"

As a support for humans and the world, we are constantly researching and testing principles to find and identify healthy food products.
